

# Aerodyne Sets

These Radio Sets have been designed by expert Radio Engineers, and built by skilled artisans under ideal factory conditions. Nothing but British and the best is good enough for **AERODYNE** Sets, and the results fully justify the time, thought and expense given to these productions.

When you buy a Radio, you must be sure you are getting a reliable yet simple to operate, as well as an artistic, Set.

Compare these Sets with any other, examine every detail, ask your local dealer to demonstrate one in your home and we are confident your choice and your pleasure will be to buy an **AERODYNE**.
