# Read these opinions

"A week or so ago I obtained one of your All Mains sets—the one with the excellent moving coil speaker.

This is my seventh or eighth set since my first crystal set and I have never obtained such a range of stations. Furthermore, the tonal quality and volume are remarkable. I am able to get so many stations that it is absurd to count them: I get more and more all the time. They just come in by revolving the knob.

All this is the more pleasing as I am in one of the most unfavourable areas—Palmer's Green—which is on a main corridor for the powerful Brookman's Park Station, and is but six miles from it.

The installation of the set was simple because your printed instructions are so clear. Within ten minutes of its arrival, we were getting excellent reception, but at such great volume that I have rigged up a crude indoor aerial, retaining the outdoor aerial for foreign stations."

(Signed) "A.N." Palmer's Green, N.13.

"I have just had one of your Dominion S.G.3's. I may say that I am more than

pleased with it. Here are the stations I have had at full loud-speaker strength. English stations—Radio Paris, Konigs Wusterhausen, Moscow, Novosibirsk, Vienna, Prague, Madrid, Algiers, N. Africa, Radio Suisse Romande, Stuttgart, Graz, Austria, Strasburg, Brussels, Bratislava, Toulouse, Barcelona, Fecamp, Warsaw. The modulation is nearly perfect and the ability of the Dominion 3 to cut out powerful English stations cleanly and to bring in foreigners at full strength in the space of a few metres must stamp it as being ahead of many far more expensive sets."

(Signed) "A.A.L." Bolton.

"I beg to inform you that I purchased one of your 2-Valve Sets which has proved to be a wonderful set for foreign reception. My friends have been amazed when listening that a 2-valve could pick up foreigners with such tremendous power. Such stations as Heilsberg, Hilversum, Brussels (No. 2), Strasburg, Muhlacker, Toulouse, Sottens and Rome can be received almost as loud as the London transmitters." (Signed) "F.W." Chesham.

Deferred payments if you wish

Listen as you pay..
